## HOTEL COMFORT

With a total of 123 rooms, divided into different categories, we have come up with a variety of creative themes all around the hotel. All focusing on making your stay like a visit to paradise, the colourful 80's, all this with a strong focus on sustainability. Some of our rooms we have designed together with selected partners such as Die Brueder Publishing, who have equipped your NO TV room with amazing magazines. All of our rooms are perfectly suited for your weekend stay or business trip, because comfort is the focus here.

## HOSTEL VIBE

Encounters are important to us, because when travellers meet locals, that's when the magic happens. Whether at a small concert, a reading or simply at the bar for a chat and a drink. You can hang out on our rooftop terrace, plant or pick herbs in our green room or explore our vintage shop in the lobby. Whatever you feel like doing - we embrace it!

## HOME FEELING

When travelling to a foreign city, the best thing is to spend the night in at a good friend's place, a super home! We are such a home with friends where everything is based on trust. Warm, honest, lively and personal - always with an open ear for good conversations. Welcome home!

## FOOD & DRINKS

Hamburg's first fondue restaurant

### **BAMBOOLE** FOOD & DRINKS
